2018
NEW HOPE UGANDA
Celebrating 30 years!
Letter from the Director

As we see in verses like James 1:27, caring for the orphan and the widow is a calling for the followers of Christ. This caring is also a tremendous privilege – being His hands and feet as we “bring the Fatherhood of God to the fatherless”!

For over 30 years, New Hope Uganda, has been meeting spiritual, physical, and emotional needs of thousands of children who have suffered the loss of one or both parents and have been left in destitute situations. The number of children in great need shows no sign of reducing. Gradually, our vision has grown to include strategically addressing root cultural and societal causes of fatherlessness. Worldviews trapped in sinful patterns unwittingly perpetuated by communities, create lifestyles that then create fatherless children. Through our teaching on Biblical Manhood and Womanhood, and ministries like our Musana FM radio station, Childcare Extension Program, Investment Year Program, Treasures in Jars of Clay, Hope Family, the Institute for Gospel Transformation, and the Pastoral Training Institute, we are effectively addressing those root causes of fatherlessness.

We intentionally take a two-pronged approach: caring for the widow and the orphan in their plight while addressing root causes of fatherlessness. Both prongs are producing exciting and lasting fruit as the gospel of Jesus Christ leads the way.

We appreciate your partnership!
A father of the fatherless, a defender of widows, is God in His holy habitation. God sets the lonely in families.

PSALM 68:5-6a

Who We Are

Uganda’s continual killings and brutal civil war from 1981-1986 left thousands of children orphaned and hopeless. When the Dangers family arrived in Uganda shortly thereafter, the landscape was filled with darkness. Remnants of the war greeted them at every turn. Human skulls and personal stories of loss served as constant reminders of God’s calling to bring hope to the hopeless and the Fatherhood of God to the fatherless. After two years of trials and hard work, New Hope Uganda welcomed its first children—two girls and eight boys. Since then, the ministry has grown into a work that is impacting thousands for Christ, through the three main sites and throughout its surrounding communities and the nation at large. Today, we are a multi-cultural/multi-tribal team focused on bringing the Fatherhood of God and family to the fatherless. We are committed to addressing the root causes of fatherlessness in Uganda: from fallen-cultural worldviews and sinful practices to the breakdown of marriage, family, manhood and womanhood. We are a family that is centered around the true answer to the orphan-crisis of our day: the Gospel of Jesus Christ.

As a ministry, we are committed to promoting biblical manhood and womanhood, Christian education, God-centered self-sustainability, and supporting the central role and calling of the local church. By the grace of God, we are raising up a generation of men and women who stand for truth, defend and care for the fatherless and widow, and live out the Gospel of Jesus Christ in Uganda and around the world.

Who We Serve

We believe we can make the greatest impact by focusing our efforts on orphans and widows, guardians of orphans, and adult influencers. One way we serve the most at-risk children is by placing them in onsite family groups headed by Ugandan parents where they receive physical, emotional, and spiritual love and care. We serve adults in need and adult influencers through community outreach and the provision of biblical instruction, worldview-impacting trainings, and instruction in the Gospel-solutions to the root causes of fatherlessness. These efforts are aimed at equipping boys and girls, men and women to be agents of Gospel-change in their own families and communities, thus working toward orphan-care and orphan-prevention through healthy families.

New Hope Timeline

- **1962**: Uganda gains independence
- **1963**: Milton Obate is president
- **1962-1981**: Mass killings begin
- **1972-1980**: 3 presidents come and go
- **1972**: National Resistance Army begins to fight
- **1980**: Idi Amin is president
- **1981**: Nation gains independence
- **1981**: Milton Obate returns as president
Changes & Opportunities

Just like all developing countries, Uganda’s culture, economics, and politics are always changing. New and threatening trends in Uganda create opportunities for us to respond. One major difference in Uganda is that the government and culture is open to the Word of God. The following list of trends are impacting our efforts the most.

Social/Cultural Changes:
• Increasing breakdown of biblical family values and structure
• Escalating orphan crisis caused by moral and societal degeneration
• Continuing acute prevalence of preventable diseases such as AIDS, Malaria, Typhoid, and others

Economic Changes:
• Increasing cost of living, inflation and the challenge of retaining high quality staff

Legal Changes:
• Increasing legislation and regulation of family and educational matters

Opportunities Ahead

In response to these new trends, we have identified three priorities to pursue now and into the future:

1. Train all people directly related to NHU in Biblical manhood and womanhood and promote it through all available avenues. Ongoing.
3. Develop and implement a plan for advocacy and networking social/cultural/political trends. Ongoing.

We expect the aggressive pursuit of these priorities will lead our overall organizational impact into the future by producing the following results:

1. Training 10,000 youth and adults in biblical Manhood and Womanhood program. Ongoing.
2. Tripling our income.
3. Putting ourselves in a proactive position with governing authorities and the law, to secure the care of orphans and widows into the future. Ongoing.

Children in Our Care

Presently, we have 640+ children and only two-thirds are directly sponsored. These numbers include both Kasana and Kobwin sites. In addition, there is another 150+ special needs children in the community, who are not in the school system, receiving basic care and family parental training from Special Needs Program (TOJOC). The children in our sponsorship program receive discipleship, loving care, free education, and two meals a day at school.
I am the vine, you are the branches. He who abides in Me, and I in him, bears much fruit; for without Me you can do nothing.

JOHN 15:5
New Hope Uganda Ministries

New Hope Education, Kasana / Kobwin

New Hope Uganda (NHU) believes that true education is not merely passing on knowledge or “know-how,” but imparting true wisdom through drawing individuals into a relationship with Jesus Christ, because all knowledge, understanding, and wisdom are hidden in Him.

Esuubi Eppya Vocational Primary School, at Kasana, began in 1988 with 1 teacher and 12 students. Today, NHU’s education programs serve over 650 students with 3 primary schools, 1 secondary school, Vocational School and a unique Investment Year & Early Adult program, across 3 locations.

Our education curriculum is holistic; incorporating traditional academic subjects, biblical studies, self-sustainability, and agricultural education as well as medical care for every student. In addition, at our Kobwin school, we offer vocation training in tailoring, masonry, and construction.

After secondary school, our students are served by our Early Adulthood Department and begin our Investment Year (IY) program. This program is unique to NHU and provides our students a year to explore careers after secondary school. IY includes three internships, mentoring, and classes in subjects like, business, finance, computer proficiency, biblical stewardship and ethics. Our IY program has been so successful that other organizations are emulating the program. After IY, our students choose a career or vocation to pursue with the support from NHU until they have completed their chosen degree, certificate, or apprenticeship.

Upper Primary - Kasana
Hope Family is New Hope Uganda’s ministry to orphaned, abandoned, vulnerable and special needs babies, in the district of Nakaseke.

Our community outreach work has helped shape the way we continue to develop our Hope Family Ministry. We take time to understand a family situation for each child who has been highlighted as vulnerable and we look for healthy opportunities to keep a child in known family through our ongoing support up to the age of three years. We encourage safe and loving family for the child to flourish by offering pastoral care, training, milk formula, food provision, medical coverage and much more.

The most needy babies that require a safe place, come into Hope Family (onsite). They are loved and cared for by one of our trained mothers 24/7, while we investigate possibilities for the child to be restored to biological family willing to embrace him or her as true family. In some cases, where appropriate, we pursue adoption for the child.

We thank God that this ministry has allowed New Hope Uganda to point people in our surrounding communities to Him, our loving heavenly Father!
Since 2009, New Hope Uganda has been ministering directly to children with disabilities in our surrounding community and to the families affected. Disability is difficult anywhere, but in Uganda there are virtually no services or infrastructure to serve those with physical or mental disabilities.

In the Ugandan culture, many look at children with disabilities as a curse, but God values each life and has a purpose for every person, regardless of disability. No matter how broken or fragile their body, mind or spirit is, God has a purpose for them. We do all we can to help reveal the treasure and potential planted inside each individual.

The “Treasures in Jars of Clay” (TIJOC) ministry includes two special needs homes (Hassan’s House and Stella’s House) special needs school onsite, and a community outreach program to support, encourage and train parents with special need children. Today, (TIJOC) touches over 250 special needs children and parents in the community.

TIJOC teaches a biblical view of disability and suffering, cares for those with disabilities in our local community, and provides education and support to those impacted by disability.
Childcare Program
Kasana & Kobwin

For over thirty years New Hope has directly cared for thousands of orphaned children. Over the years we have introduced our children to their Heavenly Father through the provision of Biblical family and through the intentional provision of godly parents and men who act as fathers and mentors.

Currently, our onsite childcare program provides a God-centered family environment with 12 to 20 children gathered into one of our seven family units led by Ugandan parents. Each family provides not only stability of parental care, but also brothers and sisters who work together to farm between 3-5 acres to help provide for their needs and learn self-sustainability. Each evening children are shepherded in the Word of God and each day provided with Christian education. Our goal is to disciple and train children to be Christ-followers with Kingdom vision and values who will then be productive citizens of the nation of Uganda and stewards of the Gospel. One of our great joys is to see, in turn, our own children going on to “bring the Fatherhood of God” to other fatherless children, acting as part of the Father’s solution to the problem they know so well.

Extended Childcare Program
Kasana & Kobwin

Childcare Extension is focused on helping the off-site children and families located in our various communities. While the children attend our schools, New Hope social workers provide monthly visits to review the family conditions and provide care and Gospel-witness. In addition, the families receive godly counsel, biblical teaching, and if needed food, clothing and medical support. Over the years many people have accepted the gospel of Christ through these efforts, families have been built up, and children have been cared for at-home by their own biological relatives.
Kasana Community Church (KCC) exists to worship and glorify God while reaching out into communities with practical demonstrations of Christ’s love. We do this through Musana FM Radio ministry, hospital ministry, prison ministry and a youth ministry (EYO) that shares the gospel of Christ through the Word and service throughout the country. Each Sunday the average attendance at KCC is over 400 people from over 5 different nations and over 10 different tribes. Kasana Community Church has four church plants: Kabubbu, Mabaale, Minyinya and seeking to plant more.
Institute for Gospel Transformation (I4GT)

Ministry Preparation and Orphan Care Course (5 month course)
Pastoral and Church Leadership Training Course (3 year course)
Kasana

Institute for Gospel-Transformation

The Institute for Gospel-Transformation exists to train and equip men and women who desire to be agents of Gospel-Transformation in their churches, ministries, and communities. The Institute offers two distinct courses: Ministry Preparation and Orphan Care and Pastoral and Church Leadership Training.

Ministry Preparation and Orphan Care Course

This course is designed for men and women who are called by God to serve in some capacity of ministry. Missionaries, pastors, ministry leaders and workers, teachers, and orphan care workers from various tribes and nations gather together for a deeply transformational twenty week journey. The course serves as a culturally-exposing, discipleship-oriented, and community-centered ministry preparation experience. Because students are engaged in various aspects of ministry, we provide specialized focus, assignments, and practical experience to better equip students for ministry. Our emphases include: Ministry to the Fatherless, Christian Education, Cross-Cultural Missions (in or outside of Uganda), General Ministry and Discipleship, Family Ministry, and Pastoral/Church Ministry.

Graduating class 2015

Aerial view of Institute at Kasana
Pastoral and Church Leadership Training Course

This course is designed for men and women who are called by God to serve specifically in Church-related ministry. This three-year course meets one week each month (Mon-Fri) so that pastors and leaders can continue to shepherd and care for their churches and families. The course equips church leaders to minister out of healthy hearts, marriages and families, while providing solid biblical and theological training as well as development and training in family-based agri-business. This two-fold approach grounds ministry leaders with biblical foundations as well as the ability to provide for their families, something the average village-pastor struggles to do. Students can choose from the following emphases for specialized focus and equipping for ministry: General Pastoral Ministry, Mercy-Compassion Ministry, Christian Education, Cross-Cultural Missions, Family Ministry & Discipleship, and Outreach/Church Multiplication.

Go therefore and make disciples of all the nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all things that I have commanded you; and lo, I am with you always, even to the end of the age.

MATT 28:19-20
New Hope Uganda Medical Clinics
Kasana, Kobwin, Musana Camps

Medical care remains one of the greatest physical needs in Uganda. New Hope’s Medical Clinic was birthed from an all-too-common tragedy when a son of New Hope died from malaria in 1990. God’s people responded, and the Lord provided the means for the ministry to offer basic care to the sons, daughters, and staff living on-site.

What began at Kasana as a two-room facility with one nurse checking for malaria, has expanded into 3 locations with services that include a lab that tests for typhoid, malaria, parasites and other preventable diseases. The clinics are staffed by nurses and a full-time lab technician. The clinics minister to the New Hope children, staff, workers, and various individuals in the community.

At various times, medical teams from the West come to serve New Hope and the surrounding communities through offering medical services and outreaches that have taken them all over the country. The Kasana clinic team conducts monthly outreaches into the local community to improve health conditions and share the love of Jesus. All the ministry sites have offered vision and dental outreaches, and Musana Camps’ new clinic offers services to a community devoid of local medical care.

I will make you a great nation; I will bless you and make your name great; and you shall be a blessing.

GEN 12:2
Kobwin (North/East)

Located in N/Eastern Uganda, Kobwin Children’s Center was founded to care for children who were victims of the atrocities committed by Joseph Kony and his Lord’s Resistance Army. Rescued children were often highly traumatized and needed intense rehabilitation before they could re-enter society. Our team at Kobwin has seen many of these young men and women find healing and hope as they become followers of Jesus. Today, Kobwin is a thriving children’s center caring for children who are orphaned because of HIV/AIDS, poverty, and abandonment.

Musana Camps

In 2008, Musana Camps was established on the remote shores of beautiful Lake Victoria. Musana’s camp environment provides opportunities for NHU children and staff as well as countless groups from churches, childcare ministries, Christian organizations, and schools to come to know Christ, grow in their relationship with Him, and deepen their understanding of God’s truth and design for manhood and womanhood through tailored teaching, activities, and hospitality. While camp continues to be the primary aspect of ministry at Musana, it has grown to include several ministries.

- Camps & retreat programs for youth & adults
- Guesthouse ministry for rest & restoration
- Musana Community Church
- Woven Hearts of Hope
- Musana Primary School
- Musana Community Clinic

Canoeing on Lake Victoria
Sponsorship (Child or Ugandan Missionary)

Enabling the Church to end the cycle of fatherlessness.

• We empower existing needy families to stay together.
• We place orphans in onsite families with Ugandan Christian parents. We are not an orphanage.
• We guarantee an excellent Christian education for every child.
• We offer sound Biblical values to the spiritual, physical and emotional needs of the child.
• We encourage and facilitate strong sponsor relationships.

Sponsorship options - Goal to obtain 300 new sponsors each year.

We offer a relational letter-writing or a non-letter writing program

Varying Ministries.
In addition to child sponsorship we also provide the opportunity to sponsor special needs children, Ugandan missionaries, and the Hope Family baby ministry providing necessities, like milk formula, for needy families.

View profiles and learn more at newhopeuganda.org/sponsorship.
Vision Sponsorship – Getting connected to the general vision of New Hope Uganda.

If you are the type of person that wants to connect and support the overall vision of New Hope Uganda then we encourage you to join the silent-partners group. This allows you to support New Hope on a monthly commitment and you will receive reports about where the funds are going and the work progress. Join today! For more information go to newhopeuganda.org

Project Sponsorship – Connecting yourself to a specific work or project at New Hope Uganda.

If you would like to support a special work or project you can contribute to those needs as well. We have many to choose from on our website.

One needed project is staff housing for our Ugandan missionary staff. This housing need allows our staff to live on the NHU campus for safety and be a role-model to the children.
There are two sides of every coin, aren’t there? With regard to non-profits, one side of the financial coin is “Cut all non-essential expenses! If they love Jesus, the staff should work for (next to) nothing,” or “Joe’s wife used to be a cashier; let’s get her to be our accountant.” The other side of the coin, of course, is that charities should spend more on overhead in order to ensure quality leadership, accountability, and communication.

So how does a Christian nonprofit determine the right balance? This is the tension we continue to wrestle with at NHUM.

As our organization grows, I believe it’s essential to attract and sustain excellent staff members to ensure high nonprofit performance: transparency, governance, and leadership. Furthermore, NHUM has been working to increase the depth and breadth of the information we provide to donors in these areas so as to provide a much fuller picture of our performance.

If you looked at the NHUM financial reports in detail, I’m confident you’d be proud of us; in fact, I’m sure you’d be amazed to see how God has provided such a quality staff (mostly part time and/or self-supported) for relatively little overhead. Furthermore, we have been ECFA* accredited for two years now, which speaks volumes in itself.

If needed, please contact us and we’ll answer your questions and/or show you specifically how your donation is being spent. Also, please feel free to look over our 990 and annual audit for detailed information.

Thank you for partnering with us. Together, God is using New Hope Uganda to radically change lives.

Sincerely, Johnny Karls
NHUM Board member and Interim President

Get Involved

For the ministries of New Hope Uganda to grow and better serve the vulnerable and abandoned children of Uganda, we are looking for passionate partners to be a part of our mission. There are many ways to get involved and be a part of what God is doing in this mission field.

Opportunities to get involved:

1. Pray for New Hope Uganda, the children and the ministries
2. Sponsor a child and/or Ugandan missionary
3. Promote sponsorship for NHU
4. Lead a team to NHU and share your talents
5. Join a team visiting NHU
6. Create or join a NHU cell group in your church
7. Fund a project at NHU
8. Help fundraise for NHU
9. Donate your time to help the New Hope Uganda Ministry staff
10. Join our missionary staff for a long or short term mission
11. Participate in the STEER program.
12. Shop through Amazon Smile in NHU’s name
13. Engage on social media to share the mission with family and friends

Get involved at newhopeuganda.org
Mugabi Ronald
Mugabi was 4 yrs. old when his mother died and was brought to NHU. When he completed primary school, Mugabi searched for his father only to find he had passed away the year before. With the painful loss, Mugabi was comforted by the love of the Father of the fatherless. Mugabi came to know Jesus Christ during his years at New Hope and received education from pre-school through university. Mugabi is a grown man passionate to bless others. He is a leader and founder of the Emmanuel Youth Outreach program. He is married, has a baby daughter, is manager of the ICT department at Kiwoko Hospital, heads the New Hope Uganda Sons and Daughters Association and is on the NHU Board of Trustees. His life motto: blessed to bless.

Medi Kanyike
Medi was born into an intact Muslim family. Because his father was a driver for New Hope, Medi was placed in the New Hope Schools. However, he was instructed by his father to never engage in any Christian activity. Medi completed the NHU program through university and in 2002 he came to know Christ, but took ten years to confess this to his parents. This confession damaged his relationship with his family, but he continues to love them and honor them, despite the rejection. Medi was a pioneer staff and now is the Operations Manager at Musana Camps. He married a NH daughter and they have two sons. “I am proud of NHU because they instilled discipline in me, taught me to be productive with my hands, to love my family and above all, love and grow in relationship with my Heavenly Father.

Kaberuka Zam Zam
Zam Zam was the 47th out of 49 children born to a wealthy Muslim man. Her father died 2 years later. Zam Zam and her sisters and mother were left destitute. Zam Zam’s mother could not control her or afford to support her into secondary school, so her mother brought her to New Hope as a last resort. For four years, Zam Zam kept her Islamic faith while asking deep and probing questions about Christianity. One day, she realized her need of a Savior, Jesus Christ. Jesus changed Zam Zam completely! She is now full of joy and confidence in Him as she grows in her relationship with Jesus. Since Zam Zam’s conversion her mother has also accepted Jesus! She is in her final year of studying medicine at Kampala International University.
Continued achievements of NHU sons & daughters

Bringing the Fatherhood of God to the community.
See what great love the Father has lavished on us, that we should be called children of God!

1 JOHN 3:1A
